

The decision by Sinclair Broadcasting to require an airing of an anti-Kerry documentary within days of the election is an overwhelming example of the ability of the media moguls to enforce their opinions on the American people. The FCC should have clear and specific laws that require both sides of the debate to be heard or the license to broadcast should be revoked. In addition, the inability of the FCC to regulate these huge conglomerants will result in a fascist state and should be broken up.

Our public airwaves are offered free of charge by you and the media corporations are required by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy.

This horrible corruption and it's impact on an election in our democratic state, shows why we need to strengthen media ownership rules, not weaken them.

Please pay attention to the voters not the corporation who are voting with their dollars only.

Thank you.
